C-5

AI enters the frame from the right. The Hiro and AI glare at the camera.

AI)  
I will be his voice, as he lost his to ALS

**SUPER)**  
**A year since the Ice Bucket Challenge.**

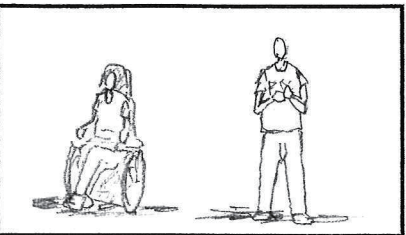

C-6

Hiro's profile. The camera focus moves from Hiro to AI.

C-7

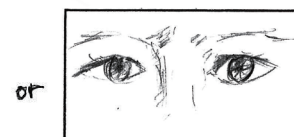

AI voices Hiro's words typed in with the eye-tracker.

The nightmare of ALS continues. However, in some places in the world, patients are able to TRY safe but unproven treatments And some ARE recovering.

C-8

Hiro's eyes.

C-9

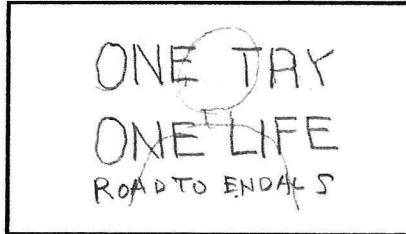

As if making a plea to the camera,  
AI communicates Hiro's voice.

There IS hope.  
WE WAIT for the day when patients  
everywhere, can TRY the clinical trials.
